HEADLIGHTS

Energizer Cap Light, Flashlight with Hat Clip

The Energizer Cap Light is an ultra-slim solution designed to light your way, while keeping both hands free. For maximum convenience, the Energizer Cap Light can be easily clipped above the brim to provide an unobstructed view, and also pivots up to 90 degrees to direct light precisely where needed. The red LED provides discreet night vision, while the white LED delivers high-performance directional illumination. The Next-Push Off feature allows consumers to switch the light off without pressing through different light cycles. Designed to be rugged, yet compact and lightweight, the Energizer Cap Light is ideal for outdoor activities and offers an exceptional combination of brightness, runtime and durability.

Rugged metal clip to fasten securely to a variety of caps, hats and more

Pivots up to 90 degrees to direct light where needed

Up to 5X brighter than standard LED Technology

Operates on 2 AAA Energizer Max Batteries which are included with your purchase

Water Resistant – works after splashing water on all sides

ENCAP22E LUMENS: 85

Energizer Universal Plus LED Headlamp

Face any situation head-on and hands-free with the Energizer Universal Plus LED Headlamp. Your camping or hiking trips and DIY projects around the house will be safer and brighter with up to 100 lumens of LED light. You'll be comfortable and hands-free with this compact and lightweight headlight. See up to 40 meters ahead with a beam that can switch between high and red night vision for outdoor activities, blackouts caused by power outages, and other household activities you never saw coming. So strap on your headlamp and see what's ahead.

Energizer Universal Plus LED Headlamp comes with 2 AAA batteries
See up to 40 meters ahead of you with up to 100 lumens of brilliant LED light

Compact and lightweight, this headlamp is a comfortable way to brighten your path

Versatility of high and red night vision modes allows for a variety of uses

Ideal as an emergency light or for camping and hiking with up to 9 hours of runtime

ENHDCU22E LUMENS: 100

Energizer Rechargeable Multi Purpose COB Headlamp

Work in the darkest places with the Energizer Rechargeable Multi Purpose COB Headlamp. The Energizer headlamp is comfortable to wear and reaches over 17 meters to deliver bright, hands free light. This small hands free light works off a rechargeable lithium ion battery that can be charged via USB. A runtime of 2.5 hours on High mode give you dependable brightness when you need your hands free. The rechargeable light also detaches from the base to double as an area light. The small light is compact, lightweight and comfortable to wear. Durable metal construction ensures the reliability you count on from Energizer. For reliable performance in any situation, put your trust in Energizer.

One (1) Energizer Rechargeable Multi Purpose COB Headlamp with included charging cable

Multi-use light clips on and off of head lamp strap

Great rechargeable light for area and hands-free use for work tasks

Powerful beam casts 180 lumens on High

Detaches from base for use as a 360 lantern flashlight

This rechargeable light is IPX4 water-resistant

ENHDGRLP LUMENS: 180

Energizer Vision LED Headlamp

Light your way out of the dark with the ultra-comfortable, hands-free Energizer Vision LED Headlamp. Its pivoting head, up to 50-meter beam, and impact-resistant construction (for drops up to 1 meter high) make it an ideal choice for camping enthusiasts, early-morning dog walkers, and late-night hikers. Its pivotable head design lets you direct your light from high (great for biking, hiking, or hunting) to low (perfect for reading or using as a work light). The comfort of its stretchable, washable band makes it easy for you to adjust its size from small to large. Give a round of applause for this hands-free, lightweight Energizer Vision LED Headlight.

Lightweight and comfortable Energizer Vision LED Headlamp works with 3 Energizer MAX AAA batteries (batteries included)

Powerful light beam reaches up to 50 meters and toggles between high or low light modes and run time with a switch

Puts out up to 200 lumens with its powerful white LED headlamp technology

Comfortable, washable band with pivoting headlight directs the light beam where you need it

This durable headlamp resists damage from drops up to 1 meter high, for worry-free use, whether you're hiking, biking, or climbing

Runs for up to 7 hours on high mode

HDA32E LUMENS: 200

Energizer Vision HD LED Headlamp

Light your way out of the dark with the ultra-comfortable, hands-free Energizer Vision HD LED Headlamp. Its pivoting head, up to 55-meter beam, and IPX4 water-resistant construction make it the ideal choice for early-morning runs, everyday projects, and late-night hikes. Its thoughtful design lets you adjust your light between 4 modes and your band from small to large. Its pivotable head design lets you adjust your light between 4 modes: high (great for hiking or hunting) to low (perfect for reading or using as a work light) to spot light (for viewing at a distance—great for biking) to flood (ideal for a wider visibility—indoors or outdoors). The comfort of this stretchable, washable band makes it easy to wear, allowing you to adjust its size from small to large. Give a round of applause for the hands-free light of Energizer Vision HD Headlight.

Lightweight Energizer Vision HD LED Headlamp works with 3 Energizer MAX AAA batteries (batteries included)

Powerful beam reaches up to 55 meters and puts out up to 300 lumens with state-of-the-art LED technology

Switches easily between 4 light modes: high, low, spot, and flood

Comfortable, washable band with pivoting headlight directs light where you need it

This durable headlamp resists damage from drops up to 1 meter high, for worry-free use, whether you're hiking, biking, or working around the garage

IPX4 water-resistant construction withstands splashing

Runs for up to 4 hours in high mode

HDB32E LUMENS: 300

Energizer Vision HD LED Headlamp 2 Pack

Light your way out of the dark with a 2 pack of the ultra-comfortable, hands-free Energizer Vision HD LED Headlamp. ENHDFRLP LUMENS: 400

Energizer Vision HD + Focus LED Headlamp

Light your way out of even the darkest places with this innovative headlight, the lightweight, hands-free Energizer Vision HD+ Focus LED Headlamp. With its pivoting head for customizable, directional light, up to 85-meter beam, and IPX4 water-resistant construction, this durable headlamp is the ideal choice for any lover of the outdoors. Its thoughtful design lets you choose from 5 light modes, including night vision, and its red LED light makes it great for nighttime illumination, whether you're camping, hiking, or fishing. The digital focus of this LED headlight also allows you to seamlessly transition from spotlight to full flood light. The super comfortable and adjustable band fits a range of sizes, from kid to adult, and is completely washable. With advanced memory recall, you can quickly return to working with the last focus setting you used before powering off. Give a round of applause to our best hands-free Energizer Vision HD+ Focus LED Headlamp for all your adventures.

Lightweight and comfortable Energizer Vision HD+ Focus LED Headlamp works with 3 Energizer MAX AAA batteries (batteries included)

Powerful beam reaches up to 85 meters and puts out up to 400 lumens with its LED technology

Switches easily between 5 light modes: high, low, full spot, full flood, and night vision (red) for outdoor illumination anytime, anywhere

Pivoting headlight with Digital Focus conveniently allows the beam to adjust from wide-range to a focused beam

This durable headlamp resists damage from drops up to 1 meter high, for worry-free use, whether you're hiking, biking, or working around the garage

IPX4 water-resistant construction withstands splashing

Runs for up to 3 hours in high mode

HDD32E LUMENS: 400

Energizer Vision Ultra Headlamp with High CRI LED

The Energizer Vision Ultra High CRI Headlamp brings outstanding performance in a compact design. The headlamp shows innovative features such as the dimming technology that allows easy control of light intensity. In addition to the high CRI white LED for enhanced color definition, this light has green and red LEDs which enhance night vision for outdoors activities such as hunting and fishing. The VisionGuard technology gradually increases the light intensity to allow the users' eyes to adjust to the light. The low battery indicator, located in the front of the light, will flash when battery is low, warning consumers that it is almost time to change the batteries. An adjustable non-slip head strap, water-resistant design and pivoting head to direct light exactly as needed.

Energizer Smart Dimming LED technology to control light intensity

High CRI for clear color definition

Up to 15x brighter than standard LED technology

VisionGuard protects vision by gradually increasing light intensity

Red and Green LEDs for night vision

Water resistant and shatterproof lens

Operates on 3 AAA Batteries

Tested according to ANSI FL1 Standards

ENHDEC32E LUMENS: 450

Energizer Vision Ultra HD LED Headligh+C3

Meet the brightest LED headlamp Energizer offers: The Energizer Vision Ultra HD Headlight has everything you need, from a hands-free light and more—whether you're camping, hunting, or running at night, or working in tight spaces around the house or in the garage. Up to 450 powerful lumens of super-bright light, 15X brighter than standard LED technology. A long beam distance of up to 85 meters. A pivoting head for directional light. 7 light modes (including 2 LED night vision modes): high, low, spot, emergency strobe, red, flashing red and green. The red mode gives more contrast for better detail in the dark, while the green light mode provides light that enhances clarity and detail while maintaining a low profile. A durable, adjustable, and washable band makes it comfortable to wear all night (or day). Smart Dimming Technology allows you to adjust the light intensity until it's right for you. And running out of batteries won't be a thing: Its red, flashing low battery indicator gives you fair warning to stock up (3 AAA Energizer MAX batteries included). Water-resistant and shatterproof, the Vision Ultra HD LED Headlight provides the reliable power you expect from Energizer no matter the task at hand—or ahead.

Pivoting head directs beam where you want hands-free light, while VisionGuard minimizes impact on bystanders' eyesight by slowly increasing light intensity. Delivers 450 powerful lumens (on high)—the brightest head light Energizer offers. Durable body and shatterproof lens resist damage from drops up to 1 meter high for lighting you can rely on.

Red low battery indicator alerts you when batteries are low by flashing, so you can stay prepared.

Energizer Vision Ultra HD LED Headlamp runs on 3 Energizer MAX AAA batteries (included). 7 modes to choose from: high, low, spot, red, green, and emergency strobe. The comfortable, durable, and adjustable band stretches to fit and is removable for washing.

HDE32E LUMENS: 450

Energizer High Lumen Hybrid LED Headlamp, 1000 Lumens Rechargeable Light

Work in the darkest places with the Energizer High Lumen Hybrid LED Headlamp. The Energizer headlamp is comfortable to wear and reaches over 160 feet to deliver bright, hands free light. Operating on hybrid power, this small LED light works off either two CR123 batteries or rechargeable batteries that can be charged via USB. A runtime of over 4 hours on High mode give you dependable brightness when you need your hands free. The rechargeable light also detaches from the base to double as a handheld light. When you require exceptional light output, the Turbo mode delivers 1000 lumens for ultra bright illumination. The small light is compact, lightweight and comfortable to wear. Durable metal construction ensures the reliability you count on from Energizer. For reliable performance in any situation, put your trust in Energizer.

One (1) Energizer High Lumen Hybrid LED Headlamp with two (2) CR123 batteries. Hybrid design can be powered by rechargeable lithium ion batteries or CR123 batteries.

Great rechargeable light for handheld and hands-free use for work tasks.

Powerful beam casts 400 lumens on High and 1000 lumens on Turbo.

Detaches from base for use as a handheld LED light.

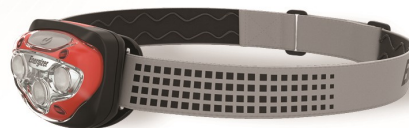

This battery powered light is IPX4 water-resistant and impact-resistant up to 1 meter for dependable performance.

Comfortable, compact design and durable metal construction offer convenience and reliability.

Energizer TAC 300 LED Tactical Metal Flashlight

Whether you're waiting out a power outage, going on a hiking or camping trip, or completing DIY projects around the house, count on being prepared with the Energizer TAC 300 LED Tactical Metal Flashlight. With a small, compact body, this metal flashlight helps illuminate all your darkest spaces with up to 300 lumens of LED light (in high mode). It features two light modes, high and low, an optional emergency strobe, and simply turns on with a rear push button. This easy-to-carry tactical light also includes a removable, adjustable clip for easy attachment to multiple surfaces (like pockets, clipboards, or hat bills). Strong and durable, it sustains a 1-meter drop test... plus, it withstands splashing with the IPX4 rated water-resistant body, so it can help light your way, rain or shine. With up to 5 hours of LED light in low mode, the Energizer TAC 300 LED Tactical Metal Flashlight is perfect for day-to-day use or to add in any emergency kit, helping prepare you for anything.

Energizer TAC 300 LED Tactical Metal Flashlight includes 1 Energizer CR123 battery
Compact and lightweight, this easy-to-carry flashlight helps illuminate dark spaces with a beam up to 100 meters and 300 lumens of LED light in high mode
Withstands drops and splashes with a strong, durable aircraft grade aluminum metal construction and a water-resistant IPX4 rated body
Keeps you prepared in all situations with 2 versatile light modes (high and low) and an optional emergency strobe
Perfect for glove boxes, purses, and tool benches; delivers a long-lasting and effective LED light for up to 5 hours in low mode
Lights your way during power outages, roadside emergencies, or inclement weather

Energizer Vision HD Tactical Metal Flashlight – TAC 700

Meet the compact and powerful Energizer Tactical TAC 700 Flashlight conveniently clips on for everyday carry. MAXVIZ technology delivers a wide and ultra-bright beam with high-def visibility for objects near and far. Water-resistant, its durable aircraft-grade alloy metal body gives you reliable impact-resistance... even when dropped from up to 1 meter high. Not only that, this flashlight offers some seriously bright light (we're talking 700 lumens on high mode). Its 4 light modes, including an emergency strobe mode accessible with a quick half, then full push of its rubber tailcap switch button, gives you the light you need no matter the situation. Whether you use the TAC 700 outdoors or in, the convenient removable clip changes orientation for easy access whenever you need it—from hunting to DIY projects or emergency situations. Comes with 2 Energizer Lithium CR123 batteries.

Energizer Vision HD Tactical Metal Flashlight TAC 700 (includes 2 Energizer Lithium CR123 batteries)
UP TO 700 LUMENS: delivers bright light with 15X the power of standard LED technology
HANDHELD SAFETY: stay prepared in emergency situations with this everyday carry tactical light's strike bezel head
4 LIGHT MODES: Go between high, medium, low, and emergency strobe mode with a push of its tailcap switch button
DURABLE: Aircraft-grade alloy metal body and IPX4 water-resistant construction
COMPACT: Pocket-sized power tough enough for jobs from hunting to camping to emergency situations
LONG RUNTIME: Runs for up to 35 hours on low mode

PMHT2L LUMENS: 700

Energizer Rechargeable Tactical Flashlight, TacR700

The Energizer Vision HD Rechargeable Metal Flashlight packs a lot of brilliant performance into a durable aircraft-grade aluminum construction. This versatile LED flashlight is rechargeable—just plug it into a USB port and the green light indicates it's charging. There's a second USB port so you can use it as a portable charger for your devices: perfect for emergency situations like power outages and off-the-grid activities like camping. With MAXVIZ technology that delivers a wide, uniform, high-definition beam, you'll be seeing as clear as a sunny day. On a full charge, the non-removable Lithium Ion batteries let you blast the darkness with up to 700 lumens and up to 2 hours of runtime (in high mode). And for maximum utility, this flashlight has 7 modes: high, low, high spot, low spot, high wide, low wide, and an attention-grabbing strobe. What more could you want from a metal flashlight? This: Water-resistant and drop-resistant up to 1 meter, it's engineered to last up to 20 years of normal use. The Energizer Vision HD Rechargeable Metal Flashlight.

Energizer Rechargeable Tactical Flashlight, TacR700

Energizer TAC 1,000 Lumen LED Tactical Metal Flashlight

Beat the dark with the Energizer Tactical LED Flashlight. From camping to power outages and other emergencies, you can count on the brilliance of up to 1000 lumens (in high mode) to light the way. Project up to 200 meters of brightness (in high mode) with this heavy-duty flashlight, plus strobe in case of emergency. You don't have to worry about being gentle with this light, made with durable aircraft-grade aluminum construction including a strike bezel head... and it's waterproof. Stay prepared with the Energizer Tactical LED Flashlight. STROBE WARNING: A small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights and strobing lights. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can trigger these "photosensitive epileptic seizures." These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. Immediately stop using this product and consult a doctor if you experience any of these symptoms. If you have a history of seizures or epilepsy, consult a doctor before using.

CONTAINS: Energizer Tactical LED Flashlight comes with 6 AA batteries

ULTRA-BRIGHT: Illuminate up to 200 meters with up to 1000 lumens of light (in high mode)

DURABLE: Aircraft-grade aluminum body and IPX7 technology, which allows for 1 meter of underwater submersion for up to 30 minutes

VERSATILE: Switches between 3 light modes: high, low, and safety strobe

LONG-LASTING & EFFECTIVE: Provides 15 hours of powerful LED light (in low mode) for emergencies or for outdoor activity
