In-Line Duct Heating / Cooling System

- 625,000 sq.ft of manufacturing space
- 400+ Salary & Hourly Employees
- **Two-Operating Shifts**
- **Sheet Metal Worker's Labor Union**

America's **Comfort Conditioning Company**

Sheet Metal Fabrication Facility

Capital Investments to improve efficiency standards, quality, & reduce scrap

Turret Punch Press Machines

- New Amada Punch Press Non-Operator Feed
- High Speed Electro-Servo Turret Press, w/Conveyor
- Lights-Out Set-up; two full-shifts, w/self-feeding system
- PC Based & Network Controlled
- Increased efficiency and reduced scrap

- Amada Punch Press Operator Feed
- High Speed Electro-Servo Turret Press
- PC Based & Network Controlled
- Increased efficiency and reduced scrap

Sheet Metal Fabrication Facility

Capital Investments to improve efficiency standards, quality, & reduce scrap

New Sheet Metal Equipment

Capital Investments to improve efficiency standards, quality, & reduce scrap

New Sheet Metal Equipment

Capital Investments to improve efficiency standards, quality, & reduce scrap

- High speed press brake Robotic Feed
- Ultra-high precision up to 12"
- Multi-load stations
- PC Programmed with WiFi intel
- Non-operator "lights-out" set-up
- Conveyor part returning system

Form Bending <u>Machine</u>

- Used for small endcaps, mounting & supporting brackets
- Improve brake press shop efficiencies and scrap

Sheet Metal Fabrication Facility

Capital Investments to improve efficiency standards, quality, & reduce scrap

Stamping Press Machines

KOMATSU

- New hard-tooling press machine
- PC based up to 100-job memories
- Used for stamping heavy metal parts from grills to brackets
- Increased operator efficiency & reduced scrap
- Reduces wear on hard tooling dies for better performance

Production Assembly Changes

Improvements in assembly production areas using portable racking system

- New Process allows for assembly bench area "kit buggy's"
- Used on Fan-Forced Unit Heaters
- Increased assembly efficiency
- Helped reduce rising material costs
- More product series to follow
- Reduced lead-times

Lead-Times NOW 3 to 5 days!!

SPECIAL THANKS to **Distributing Partners** from TPI Corporation for your time & support of our product lines!

TPI Corporation is America's Comfort Conditioning Company...!
