

THIS MONTH'S REPORT

EXCITING ANNOUNCEMENT

Our longtime partner, **KESON** has expanded our coverage, adding the **Quebec territory** to our portfolio.

We have been partners with Keson for 19-years in Ontario, and are very excited to now have the opportunity to introduce their top-quality measuring and marking products into our newest territory!

Thank you Sherri for visiting our office last month, our team is SO excited about the opportunity to grow **ITW Pro Bands!**

The Team found some time in between a busy week of meetings last month to have some fun at the **INDICA Sell-A-Rama**, see you next year in San Diego!

Last month we attended our 1st **CANS DE-Icer** in Halifax. It was awesome to see people from across the industry gather together to kick off the season. We will definitely be back again next year!

PLASTICADE®

Grip "T" Top Delineators are a great value option for traffic delineation and/or crowd control. Upgrade to our "Omega" Top design for enhanced visibility (loop your barricade tape through) and easy handling (loop over your arm) to grab more at once!

Don't forget to order your **ABUS 41/50** steel laminated locks this season! With ABUS, each individual laminate is individually treated for top corrosion protection.

Looking for solutions in **tool tethering** this season?
