

THIS MONTH'S REPORT

July??? We cannot believe we are kicking off Q3..

Professionally, our team has had a busy June attending a mix of customer events, manufacturer meetings, and engaging with end-users out in the field.

Personally, we are looking forward to taking advantage of a (hopefully) hot and sunny summer, We hope everyone gets to kick back a little bit and enjoy some well-earned vacations, time with the family or a few rounds of golf during one of our absolute favourite times of the year!

UPCOMING EVENTS
